RE: #2057

Dear Dr. McAllister:

As per our telephone conversation in early June, I would like to request of your office the necessary forms and relevant literature pertaining to the filing of a formal application. As you may recall, your committee expressed interest in examining in more detail the plan of my proposed investigation outlined in my letter of March 29, 1986. Because of anticipated research results over the summer and the tight time frame, I had decided to put off my full application until the fall. As you indicated, new forms would be generated this summer and I would appreciate receiving those so that I could begin work.

I very much appreciate your interest. With kindest regards.

Sincerely,

Michael A. Doukas
